

In addition to a wide range of flat spray standard tips, with and without preorifice, we also produce **high-quality** reversible Airless tips.

The new **X-Type reversible tip**, compatible with all Graco X tips, offers many application possibilities and enables precise and efficient spray results for various projects and surfaces.

Crucial advantages:

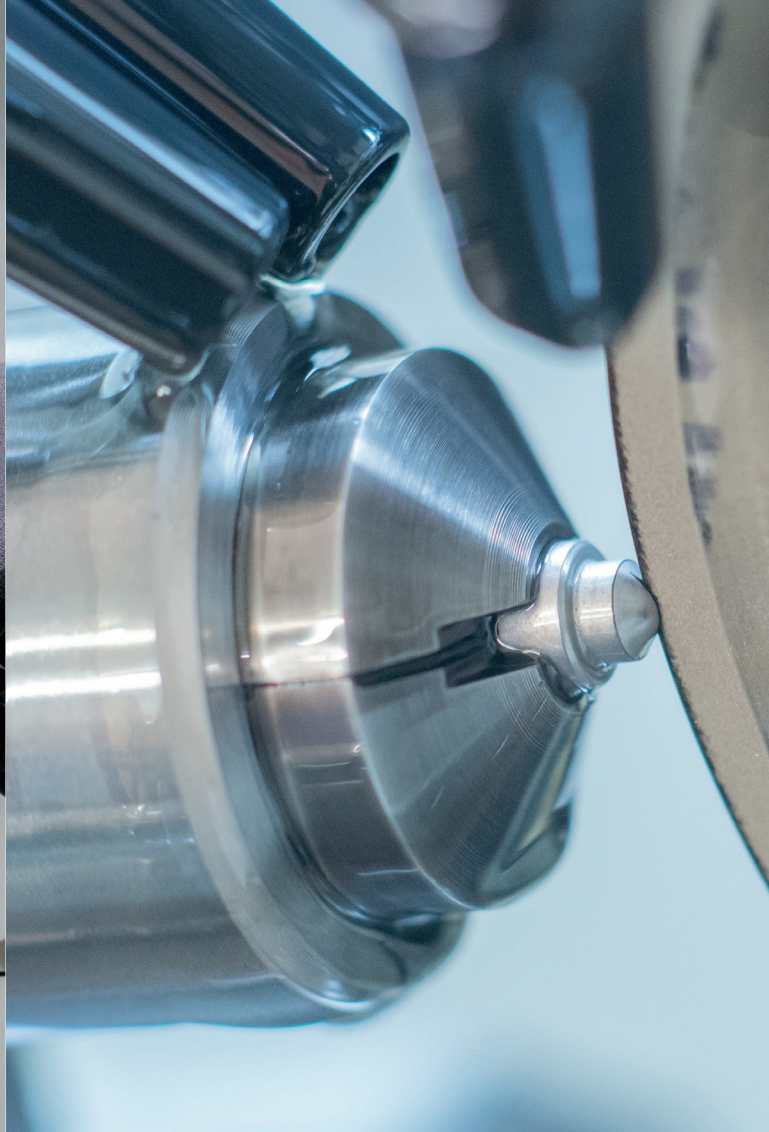

- ✓ Interchangeable with Graco X tips
- ✓ Tungsten carbide tip insert for long lifetime
- ✓ Made in Germany
- ✓ Highest availability – fastest delivery
- ✓ Customised production for private label

Your authorized dealer:

**THE NEW
REVERSIBLE
TIP SYSTEM**

We manufacture spray tips for surface technology on our **fully automatic CNC machines** with a production capacity of currently **500,000 tips per year**.

Our focus is on the development and production of AirCombi and Airless paint spray tips up to **500 bar**, made from robust and resistant **hard metal** (tungsten carbide).

OUR X-TYPE REVERSIBLE TIPS MATCH THE FLOW RATE AND SPRAY ANGLE PARAMETERS OF THE GRACO X REVERSIBLE TIPS. THE ENTIRE X-TYPE TIP SYSTEM IS INTERCHANGEABLE AND COMPATIBLE WITH THE GRACO X TIP SYSTEM.

Choose our blue X-Type tip for maximum productivity in daily use. Available in Standard and Heavy Duty versions.

Standard	max. 280 bar	MT-X-xxx
Heavy Duty	max. 500 bar	MT-X-xxx-HD

Less pressure - less overspray: The yellow X-Type tip is ideal for indoor use and delivers a perfect finish at lower spray pressure.

Low Pressure	max. 280 bar	MT-X-xxx-LP
--------------	--------------	-------------

Finest finish: The green X-Type tip ensures a consistent and noticeably softer spray pattern, even at low pressure.

Super Finish LP	max. 280 bar	MT-X-xxx-SFLP
-----------------	--------------	---------------

X-Type tip base		
7/8"	max. 500 bar	MT-X-BASE-G
11/16"	max. 500 bar	MT-X-BASE-F

X-Type seal kits, 5 pieces each.	
For Standard & HD	MT-X-SEAL-5
For LP & SFLP	MT-X-SEAL-5-LP
