

In addition to a wide range of AirCombi and Airless reversible tips, we also manufacture Airless flat spray standard tips at the highest quality level.

The product range is based on the **spraying parameters of well-known brands.**

Crucial advantages:

- ✓ Interchangeable alternative to all well-known brands
- ✓ Tungsten carbide tip insert for long lifetime
- ✓ Stainless steel housing
- ✓ Made in Germany
- ✓ Highest availability – fastest delivery
- ✓ Customised production for private label

Your authorized dealer:

AIRLESS STANDARD TIPS

We manufacture spray tips for surface technology on our **fully automatic CNC machines** with a production capacity of currently **500,000 tips per year.**

Our focus is on the development and production of AirCombi and Airless paint spray tips up to **500 bar**, made from robust and resistant **hard metal** (tungsten carbide).
